

KISS 4U V3 ADL

Scalable Rackmount System for challenging or noise sensitive environments

- Industrial grade for challenging environments – robust, reliable and sustainable
- High processing capability: up to 13th / 14th Gen Intel® Core™ i9/i7/i5/i3
- Modular concept allows easy customization
- Low noise design

Kontron's KISS rackmount servers are designed and tested for challenging environments, and are therefore the perfect fit for high temperature and mechanical stress conditions. Industrial grade design, in combination with high processing performance allows industrial applications requiring high performance and storage capabilities, e.g. high-end image processing and SCADA/MES applications. The new KISS rackmount servers are ideally suited even for complex computing tasks such as

'Artificial Intelligence' (AI) and machine learning based on processing and analytics of a huge amount of data. Efficient thermal concepts, maintenance-free and customizable designs, high performance computing and graphics power enable 24/7 operation and long-term deployment. A high degree of customization is facilitated through features like removable drives and various expansion cards.
